

## Jazz Kit

No.	Kit Name (Category)	Kit Name (LCD) (Variation)	File Name	Order in File USR No.	Kit Description
1	Jazz Kit	Jazz Maple	JAZZ_KIT.T3A	1	This kit is a standard small maple kit with an open 18" bass drum, 12" rack tom, 14" and 16" floor toms and a 14x5" loosely tuned snare. The cymbals are larger, thinner and lower in pitch and all can be crashed and ridden on. The Sub Kick channel is less noticeable on this kit as the bass drum is so resonant to begin with but it is still there.
2	Jazz Kit	Jazz MapleHi	JAZZ_KIT.T3A	2	Tuned up so it sounds just like a Hip Gig kit.
3	Jazz Kit	Jazz MapleLo	JAZZ_KIT.T3A	3	Tuned down and great for a 'loopy' feel.
4	Jazz Kit	Jazz MaplePA	JAZZ_KIT.T3A	4	PA mix with quieter cymbals and hi hat and narrower panning.
