

Carbon Bows for Violin

YBN100

Yamaha crafts five carbon bows that offer wood-like appearance plus a selection of weights and balances to satisfy individual player preferences.

Model		YBN100-L2, YBN100-M1, YBN100-M2, YBN100-M3, YBN100-H2
Stick	Material	CFRP (Carbon Fiber Reinforced Plastic) GFRP (Glass Fiber Reinforced Plastic)
	Color	Wood
Thumb Grip	Material	Lizard Leather
	Color	Brown
Winding		Gold-filled Brass
Button	Metal Band	Nickel Brass
	Core	Abalone/Snakewood Inlay
Frog	Material	Snakewood
	Eye	Abalone/Nickel Brass Ring

Five models offering weight and balance variations

Using carbon, which allows for precision design and manufacturing, we have produced 5 bow variations with different weights and different balances to provide players with a wider range of bows from which to choose.

		Overall Weight		
		59.0g (Light)	60.5g (Medium)	62.0g (Heavy)
Closer to frog ↑ Balance ↓ Closer to tip	230mm		YBN100-M1	
	245mm	YBN100-L2	YBN100-M2	YBN100-H2
	260mm		YBN100-M3	

* Weight and balance values listed above may have an error of +0.3g/-0.3g, +5mm /-5mm.

Luxurious wood appearance

The YBN100 bows feature a luxurious wood-like appearance. Adding to its refined appearance are the Yamaha logo along with the bow's model number engraved on the stick above the frog, lizard leather thumb grip and gold-filled brass winding.

Alternate to high-grade pernambuco

Using knowledge gained from in-depth analysis of traditional wooden bow making skills and methods, we succeeded to deliver the same performance and quality as wood, giving the soft tonal characteristics and elasticity.

Highly-skilled craftsmanship

YBN100 is a carbon bow series made in Japan, assembled by highly-skilled craftsmen at the Yamaha Atelier.

Performance-oriented bows

Newly developed bow making technologies used in combination with the carbon materials allowed us to control both the bow's balance and weight, and along with its rigidity and vibration characteristics, delivering bows that offer the ideal balance.
